

How Red and Blue Team Simulation helps Real-world Cyber Security

Free Webinar

11 Sept 2020 (Fri)
15:00 – 16:00

Online Broadcast

Cantonese

Anyone who is interested to know about advanced security assessment, or Red Team/Blue Team skills can join!

In the ever-changing cyber world today, a firewall or a security policy is not sufficient enough to protect your network and your assets. We will present an approach that focus on understanding the tactics and techniques of the attackers.

- Why an enterprise passed compliance review but became hacked the next day?
- What is Red Team and Blue Team?
- Methodology of Red Team vs Blue Team
- How can machine learning help in advanced malware detection?
- Success Cases Sharing
- Skills from both sides of the world

Two Cyber Security Experts will share the challenges faced by enterprises and SUCCESSFUL STORY in pre-empting Attackers with good Red Team / Blue Team skills

- Anthony LAI, Founder & Security Researcher, VX Research Limited
- Alan HO, Red Team Engineer, VX Research Limited
