

Leveraging AI Agents to Optimise Your Business

裝備未來
FutureSkills

Want a 10x productivity boost?
AI agents are the key.

Our hands-on workshop teaches you to **build AI agents that automate complex tasks**—from data analysis and inquiry handling to research, HR and marketing.

Designed for all backgrounds – no coding knowledge needed!
Enrol now!

Programme code	10018951-14
Date and time	18 Sep 2026 (Fri) 09:30 – 17:00
Venue	1/F, HKPC Building, 78 Tat Chee Avenue, Kowloon, Hong Kong
Medium	Cantonese (supplemented with English terminology and handouts)
Course fee	HK\$3,000/HK\$2,700* *Group discount for 2 or more
Target audience	Basic understanding of Generative AI

Course objectives

- Distinguish AI agents from traditional AI automation.
- Build functional AI agents using low-code platforms to automate key business processes.
- Evaluate implementation considerations for AI agents, including data security, risk management, and cost-performance trade-offs.
- Develop a strategic framework for integrating AI agents into workflows.

Inquiry: Ms Fannie KWOK | +852 2788 6271 | fannie@hkpc.org
Ms Becky YU | +852 2788 5029 | beckyyu@hkpc.org

Course Content

1. Agentic AI Fundamentals

- A. Difference between AI Agents and Traditional AI
- B. Introduction to technical concepts: Generative AI, AI workflow & Agentic AI
- C. Business cases/ relevant news for inspiration

2. Guided Hands-on AI Agent Creation

- A. Generative AI/ LLM application and prompt framework [Hands-on]
- B. Platform Introduction (such as N8N, Dify.ai, Make.com) and Setup
- C. Building AI Agent (I) - Hands-on
 - **Intelligent Helpdesk Agent**
 - Automate responses to internal policy Q&A for staff and external FAQs
 - Implement escalation rules and knowledge base queries
 - **Data Analyst Agent**
 - Automate transformation of raw data into reports and actionable insights
 - **Research Architect Agent**
 - Synthesise complex information into structured proposals and briefs
